KlimateX

CERTIFICATE NUMBER
KX-HEC-2026-LAG-000012

METERED, NOT MODELLED

Home Energy Certificate

This certifies that the home below was measured from its own solar inverter and graded on the share of its power that still comes from a generator.

HOUSEHOLD
Adaeze

HOME
Home 12 · KX-0012

LOCATION
Surulere, Lagos, Nigeria

SOLAR SYSTEM
1.73 kWp · INV-SIM-0012

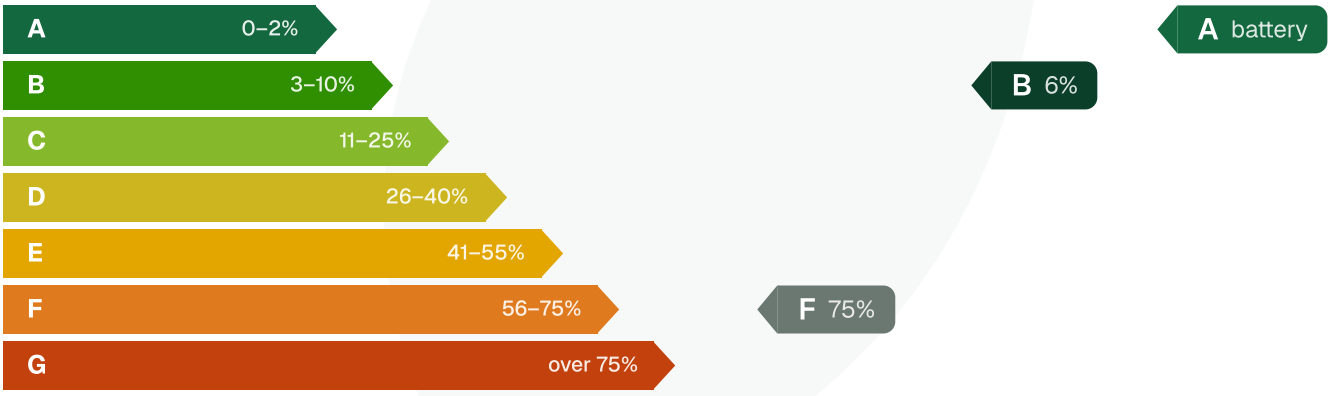

MEASURED
1 Jan 2026 to 30 Jun 2026

GENERATOR
3.5 kVA, scrapped 3 Jan 2026

B

GRADE NOW

SHARE OF POWER FROM A GENERATOR

CREDITED A YEAR	PETROL AVOIDED	TRUST SCORE	CHECKS PASSED
2.08 tCO_2e	526 L	100 / 100	9 of 9

RECOMMENDED NEXT STEP

A with a 2.4 kWh battery. Less generator time earns more credits, and the step can be financed with an Access solar loan.
